

Off Shore Fishing

Currarong is the gateway to the world famous Sir John Young Banks where record catches of nearly every species of fish have been landed including giant Yellowfin tuna, huge Kingfish, record breaking Marlin, Wahoo, and Snapper.

Fighting a Marlin

"The Banks" comprise a large area of reef with a number of shallow pinnacles about 10 Klm from the newly constructed boat ramp.

Currarong Boat Ramp

Many boats now travel more than 30klm to the Continental Shelf to fish for Tuna, Albacore, Marlin and sharks.

Fighting a whaler shark

One of the many benefits of off-shore fishing is the opportunity to closely observe whales, dolphins and seabirds in their natural environment.

Humpback whale

Closer to shore, catches of snapper, flathead, morwong, kingfish and bonito are commonplace.

The Drum and Drumsticks, the Big Bommie, Hammerhead, and the Shallows are some of the "hot spots".
